

[Claim]

[Claim 1] A patch comprising a polyester backing and a pressure-sensitive adhesive layer formed on one surface of the backing and containing a nonsteroidal anti-inflammatory drug (NSAID) wherein the backing contains a hydroxyphenylbenzotriazole derivative represented by the general formula (1):

wherein R_1 and R_2 are each independently hydrogen or C_{1-8} alkyl; and X is halogen atom.

[Claim 2] The patch according to claim 1, wherein the backing contains further titanium oxide.

[Claim 3] The patch according to claim 1 or 2, wherein the ultraviolet transmittance of the backing is not more than 2%.

[Claim 4] The patch according to any one of claims 1-3, wherein the weight of the backing is $100\text{g/m}^2 - 130\text{g/m}^2$.

[Claim 5] The patch according to any one of claims 1-4, wherein the nonsteroidal anti-inflammatory drug (NSAID) is ketoprofen.

[Claim 6] The patch according to any one of claims 1-5, wherein the pressure-sensitive adhesive layer consists of a styrene-isoprene-styrene block polymer and/or polyisobutylene.

[Claim 7] The patch according to any one of claims 1-6, wherein

the pressure-sensitive adhesive layer contains no ultraviolet absorbent.
